Alternatives and Traditional Presentation Tools

Learn what is alternatives and traditional presentation tools.

Written By: Mirai

INTRODUCTION

Learn what is alternatives and traditional presentation tools.

Step 1 — Haiku Deck

❗ It makes easier to follow the best practices recommended by experts: simplify your message, use images to amplify emotional impact, and keep formatting clean and consistent.

★ Here is a homepage of Haiku Deck
<<https://www.haikudeck.com>>

Step 2 — Prezi

- It can explore a canvas of ideas by focussing on minute detail as allowing audiences to see the big picture. Instead of a slide show which offers information in accumulation, Prezi favours visual learning and works very much like a graphic organiser or a mind map. Therefore, it highlights the way concepts are interconnected.

<<https://prezi.com>>

Step 3 — Powtoon

- You can create short, well sustained research in based question.
- You can demonstrate understanding of the topic.
- It can publish the information using technology to the others and it may help them.
- You can develop organisation and style of presentations for the audiences.
- You can write informative text with pictures.
- It makes interest to the audiences, because of the animated cartoons.
- Here is a homepage of Powtoon
<<http://www.powtoon.com>>

Step 4 — Slidedog

- You can create custom playlist of all your presentation files and media.
 - You can remotely control the presentations and playlist from your smartphone, tablet or secondary computer.
 - It lets users effortlessly combine media from multiple sources into a single presentation which suits it for conveying complex ideas or for making a presentation more dynamic and fun.
 - Everything shows up in your presentation the way it looked to begin with, with no file type or compatibility issues.
